“ **Business program definitely exceeded my expectations!** ”

When I made the decision to take the Business program, I was just looking to improve my business vocabularies for my job since I am a businessman working for an oversea company in Colombia. In the Business English program, I learned not only how to make wise and honest decisions in different situations that I face at work, but also how to be a good leader, I even learn how to behave in international business environments. In addition, teacher Lucas gave me the knowledge of how to start a company and how to make it successful.

I have been studying French at UMC for 9 months. Starting from Level 0 to Level 4, I really learned a lot. Teachers are patient, dedicated and have various teaching styles. I have different teachers every month, which is great to learn how to adjust different accents and to study with different learning methods. Teacher Van who is taught in Level 0 is just amazing. He is so patient with our pronunciation, so I built a solid foundation of French studying. There are also plenty of extra curriculums which are great opportunities for practicing what I learned in class. You will definitely fall in love with French!
